

## EDITORIAL

We have produced this section with two reasons in mind, namely to try to get more people interested in caving, and to show that there is at least one Unit actively engaged in caving.

Over the past two months, members of the Unit have taken part in 5W/Es. of differing standard, in an attempt to cater for everybody's capabilities. Four of these have taken place in the Mendip area, as this is our most accessible area, but in the future we hope to do more in other areas.

However, for the next 3 or 4 W/E, it seemed to me a good idea to do all the larger caves in Mendip. I have already arranged for a W/E on the 28th June, when I have got the keys to G.B. Cavern and Longwood Swallet. These are two of the most extensive in Somerset. For more information on these caves see me or J. Bowden. However, there can only be a maximum of 16 on the W/E and I must have names by 31st May for insurance purposes. Dates for other W/E will be published as soon as they are available.

D.L.WEBB.

P.S. Anyone wishing to join the M.N.R.C. CAN GET Admission Forms from me. (Subscription £1 annually) Membership entitles you to use of Wells Museum cheaper rates for staying at the M.N.R.S. and enables you to take part in the dirtiest, muddiest dig on all Mendip, with all the added attractions:- Severe grading, very tight ladder pitch, free mud formations, and 20ft. of passages.
