1 No NCK1, bow damaged.

As a result practical experience was learnt in repairing canoes.

Saturday. Started the course in what may be called a typical English morning "rain" but spirits were high until they all had to swim 50 yards in shorts, shirts, and plimsoles after which the capsize drill came.

The remainder of the course was general, e.g. Paddling, getting in and out of the canoe, and mainly getting used to canoes. The outstanding pupil was Franklin who swam 50 yards in the river when he could only swim 10 yards in the swimming baths. Both Instructors and pupils learn from each other and all enjoyed themselves.
