

Waste Paper & Premium Bonds

F The Unit has now started to collect waste paper as an additional source of income. At the moment we hope to be able to have a collection every two or three months. The present rate is around the £10 per tonne mark, so it should be quite possible to raise at least £100 in a year. If you have any paper you would like to get rid of, please contact anybody in the Unit and we will arrange to collect it.
